

Coding for Good App Dev: Our app's DESIGN OBJECTIVES

- Randomly display a different point of the Girl Scout Law every time you view home screen.
- Display your troop number on the home screen.
- Display a favorite inspirational logo on our home screen.
- Include two buttons on the home screen, which when pressed will transition (or “segue”) to separate screens that will view (and “play”) the Girl Scout promise and law.
- Provide a separate screen containing a graphic of this year's cookies sales for each member of your troop. (note: we can make up the “data” if you don't know the actual cookie sales by troop member)
